ARRL is the representative voice of amateur radio in the United States. ARRL and its members advance the art, science, and enjoyment of amateur radio. ARRL was co-founded in 1914 by Hiram Percy Maxim (1869-1936). Maxim's personal call sign, W1AW, is used at the ARRL Headquarters station in Newington, Connecticut as a permanent memorial.

Amateur Radio Transatlantic Communications Centennial

W1AW

The early 1920s heralded the dawn of two-way international amateur radio communications. In December 1921, ARRL sent Paul F. Godley, 2ZE, to Scotland, where he successfully received amateur radio transmissions across the Atlantic Ocean from North America. This test, and others that followed, greatly impacted the advancement of amateur radio techniques, technologies, and discoveries over the past century.
